Investment Objective

Long-term capital appreciation

Strategy

Under normal market conditions, the Matthews Pacific Tiger Fund seeks to achieve its investment objective by investing at least 80% of its total assets, which include borrowings for investment purposes, in the common and preferred stocks of companies located in Asia Ex Japan, which consists of all countries and markets in Asia excluding Japan but including all other developed, emerging and frontier countries and markets in the Asian region. The Fund seeks to invest in companies capable of sustainable growth based on the fundamental characteristics of those companies, including balance sheet information; number of employees; size and stability of cash flow; management's depth, adaptability and integrity; product lines; marketing strategies; corporate governance; and financial health.

Risks

All investments involve risks, including possible loss of principal. Investing in international and emerging markets may involve additional risks, such as social and political instability, market illiquidity, exchange-rate fluctuations, a high level of volatility and limited regulation.

- After contractual fee waiver, expense reimbursement and/or recoupment effective through April 30, 2019.
- The lesser of fiscal year 2018 long-term purchase costs or sales proceeds divided by the average monthly market value of long-term securities.
- The MSCI All Country Asia ex Japan Index is a free float—adjusted market capitalization—weighted index of the stock of markets of China, Hong Kong, India, Indonesia, Korea, Malaysia, Pakistan, the Philippines, Singapore, Taiwan and Thailand. Index is for comparative purposes only and it is not possible to invest directly in an index.
- Calculated from 8/31/94.

Performance assumes reinvestment of all dividends and/or distributions before taxes. All performance quoted represents past performance and is no guarantee of future results. Investment return and principal value will fluctuate with market conditions so that when redeemed, shares may be worth more or less than their original cost. Current performance may be lower or higher than the return figures quoted. Returns would have been lower if certain of the Fund's fees and expenses had not been waived.
