## Investment Objective

Long-term capital appreciation.

## Strategy

Under normal market conditions, the Matthews Asia Small Companies Fund seeks to achieve its investment objective by investing at least 80% of its total assets, which include borrowings for investment purposes, in the common and preferred stocks of Small Companies located in Asia Ex Japan, which consists of all countries and markets in Asia excluding Japan but including all other developed, emerging and frontier countries and markets in the Asian region. The Fund seeks to invest in smaller companies capable of sustainable growth based on the fundamental characteristics of those companies, including balance sheet information; number of employees; size and stability of cash flow; management's depth, adaptability and integrity; product lines; marketing strategies; corporate governance; and financial health.

## Risks

All investments involve risks, including possible loss of principal. Investing in international and emerging markets may involve additional risks, such as social and political instability, market illiquidity, exchange-rate fluctuations, a high level of volatility and limited regulation.
